I believe that everyone has had embarrassing experiences in their life. I had one not so long ago and I thought it was the most embarrassing experience that I have ever had! It happened to me in last winter vacation. I joined a four-day winter camp with my friends, Denise and Cher. We all lived far away from the place, so in order to arrive at the camp on time at 8 o'clock, we had to leave at 7:20. The sun was shining, flowers were blooming and birds were singing. It was a beautiful day! Everything seemed so nice until I noticed that I forgot to bring something to drink. So I asked Denise to drive me to a department store. She parked her car in front of the store and I ran in to buy some bottles of mineral water. When I got out of the store, I ran toward the car parked in front and got inside. Suddenly, I found it was not Denise's car and the driver was shocked by me. I felt so embarrassed at that time. I kept apologizing and ran with shame and blush on my face to Denise's car. My friends had seen the whole story which came to pass from the rearview mirror and they were laughing with all the energy of their hearts.

Earthquake Waves

When earthquakes happen, the grounds shake. Waves move out from the center of an earthquake. There are two kinds of earthquake waves. The first is called an S-wave. An S-wave looks like the letter S turned on its side. It moves along the surface like a ripple on a pond. Sometimes we say the "S" in "S-wave" stands for "surface". Strong S-waves do a lot of damage. They **wreck** buildings and even whole cities. This is because the S-waves lift up buildings and then drop them. The buildings fall apart. The other kind of earthquake is called a P-wave. The "P" here stands for pressure". P-waves do not move along the surface. Instead, they travel deep through the Earth. P-waves tell us much about the inside of the Earth. By **tracking** them, we find out what is deep underground. P-waves give us a picture of our planet's inside. So, in a way, the "P" stands for "picture" too.

More and more students do part-time work today. Students working part-time usually have a positive attitude towards this extracurricular experience. Besides earning some money to support themselves, they can learn a lot of things which cannot be learned from textbooks. They learn to get along with different kinds of people, obtain useful working experiences and learn about the value of labor.

However, there are also some disadvantages of working part-time. For example, too much work may cut back students' study time when they should get the best out of their college life and lay a good foundation of knowledge for their future work. Another disadvantage is that the money earned, if not properly used, may lead to some bad habits, or even greed.

The effect of having a part-time job depends on a combination of factors, such as what kind of job, what attitude one lacks and different situations. If they take a good job as necessary training, it will benefit them.

Visitors to London are struck by the proud splendour and glamour of one of the world's oldest capitals, admiring iconic sites like Big Ben, the Palace of Westminster and Buckingham Palace. However, visitors seeking a glimpse into the city's everyday life should not miss Portobello Market, which is the most-visited market in London.

This vibrant market has been featured in a number of films, documentaries and bestselling books, the most famous being the film "Notting Hill" starring Hugh Grant and Julia Roberts, which brought Portobello Market to the attention of audiences all over the world.

Portobello Market is divided into different sections selling second-hand items, clothing, jewelry, souvenirs and vegetables. The most sought-after area is devoted to antiques. Visitors may feel overwhelmed as there are over 1,000 booths manned by antique dealers from throughout England. It seems that both buyers

When tired from exploring the market, visitors can drop into the nearby food courts to **savour** an Indian curry, Italian pizza or sandwiches from Europe. Read the following passage and choose the correct answer.

There are many valuable things in life, but friendship may be one of the most important. Life without the experience of friendship is life without living. Human interaction is a necessity to survival, but friendship is an essential to the successful well-being of anyone.

Friendship is a relationship which takes time to build. One can think building a friendship is like planting a garden. Firstly, one meets a person and plants the seed of friendship. Then the friendship builds and continues to grow stronger. It requires devotion of time and patience to achieve a true friendship. Just like a garden that needs to be taken care of and watered daily to grow. However, a garden may someday become withered and die. Thus, one has to tend to it and has the patience to bring it back to life. Friendship also has its good and bad times. There comes a time when the relationship is just not working. To keep friendship lasting, one needs to have willingness and constancy to reestablish it.

A person who builds a friendship like planting a garden can overcome the obstacles very easily. Friendship and planting a garden can both be considered as “give and take”. The more effort and persistence are put into them, the more everlasting happiness can be accomplished.
